

IVA GLOBAL
SCHOOL

**Online School
of the year, Again!**
2024/25

LIVE TEACHING | QUALITY TEACHERS | STIMULATING VIRTUAL WORLD

IVA Global Online School currently supports students from 21 countries.

A global perspective on curriculum

From year R to year 9, the IVA Global curriculum is a blend between the South African IEB and the British curriculum. At the end of year 9, IVA students decide whether they wish to pursue the international GCSE and AS/A Level route or end their schooling career with a South African national senior certificate through the IEB.

IVA Global offers all three pathways

IVA Global Online School is quality assured by IQAA (*Independent agency for quality assurance in education*) and is a registered IEB SCHOOL, as well as accredited with Pearson Edexcel.

John Luis

CEO and Founder of IVA Global Online School

National IEB Grade 12 Mathematics Examiner
(Since 2006) www.ieb.co.za

Head of Academics – Advtech Schools
(2015 to 2020)

“
The future of online schooling”

IVA Global School

Welcome to our Virtual Home

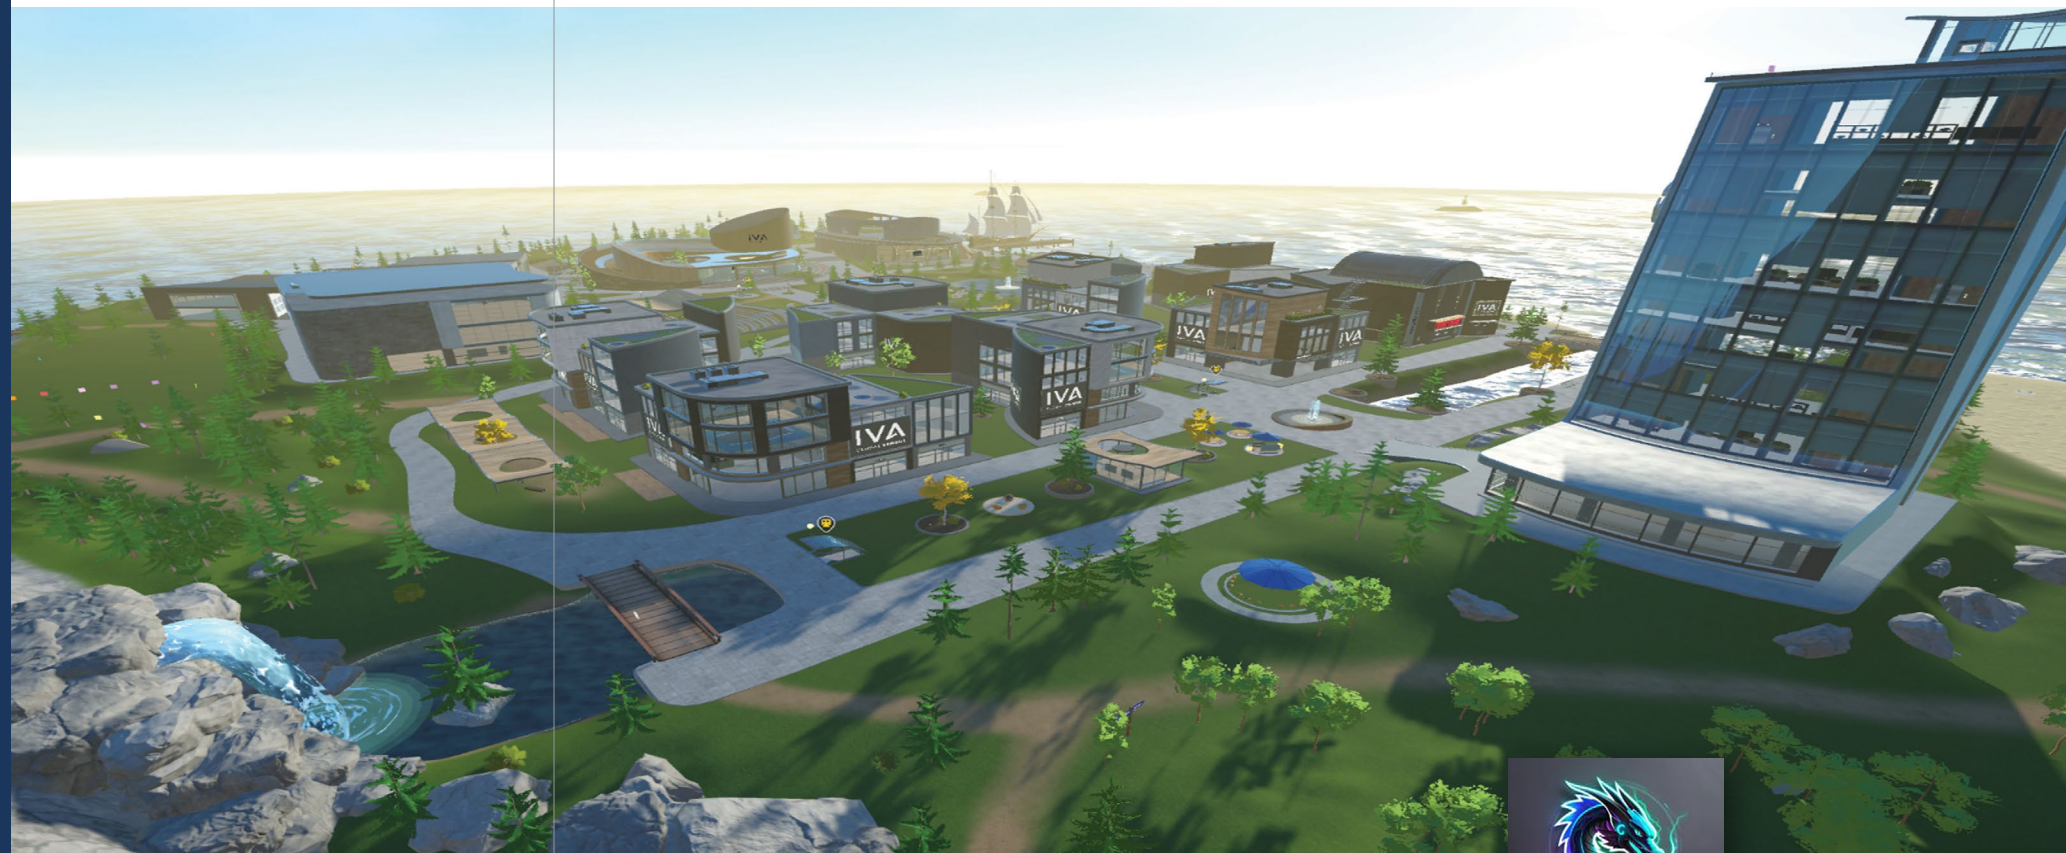

THE ISLE OF IVA

The first South African school to engage in a 3D virtual world.

Some of our current international partners

Supporting our UK and SA students based in the UK

More than just subjects & assessments

IVA Global strives to build a sense of community and belonging beyond subjects and assessments.

Monthly physical gatherings

Weekly school assemblies

Inter-house competitions

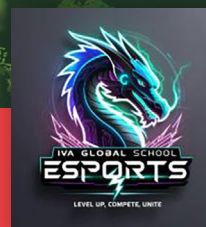

Ongoing online social events

Active student representative council

Clubs and societies

Esports

- eSports is a timetabled lesson
- eSports is our biggest online Club
- Join our team that is being professionally trained in eSports

The IVA curriculum

IVA Global Online School has students enrolled across the globe. It is for this reason that our Early Years, Primary and Junior High curricula are aligned to international best standards, with a particular focus on blending together the British and South African IEB curricula.

Subjects

YEAR R TO YEAR 9

- Home Language- English or Afrikaans
- First Additional Language – Afrikaans, isiZulu, isiXhosa, Sepedi, Sesotho.
- Second Additional Language – Spanish, French, Portuguese.
- Mathematics
- Science- Biology, Physics and Chemistry
- Arts Appreciation – Visual Arts, Music and Dramatic Arts
- Computing

- Sciences - Business and Accounting

YEAR 10 TO YEAR 12

The IVA curriculum allows students in the Senior High School to choose with regard to how they exit their schooling years. From Year 10, students can select one of the following pathways:

- British GCSE and AS/A Levels
- South African IEB (Independent Examinations Board)

Pathways

Pathway 1: British Curriculum

Choose any number from the list below:

International GCSEs and AS/A Levels

- English Language (No Literature)
- Mathematics or Further Pure Mathematics - Offered at the Foundation and Higher Tier
- Biology
- Physics
- Chemistry
- Computer Science
- Information and Communications Technology
- History
- Geography
- Business
- Economics
- Accounting
- Art & Design (GCSE only)
- Afrikaans
- Portuguese
- French

Other subjects are available and may be selected but may incur extra costs.

Pathway 2: South African IEB

Recommended for students in South Africa.

1. English Home Language or Afrikaans Huistaal
2. First Additional Language – English, Afrikaans, isiZulu, isiXhosa, Sepedi, Sesotho.
3. Mathematics OR Mathematical Literacy. Further Mathematics can be taken as an extra subject.
4. Life Orientation
5. **Choose any three subjects from the following list:** Business Studies, Computer Applications Technology, Physical Sciences, Life Sciences, Consumer Studies, History, Visual Arts, Tourism, Music, Dramatic Arts, Design, Geography, Accounting, Engineering and Graphic Design, Information technology, French, Portuguese, Spanish.

IVA Social

At IVA, we are more than the academic rigour found in subjects and assessments.

IVA COMMUNITY

At IVA, we are a community with an active online social program and our students have the opportunity to hang out in our virtual home called, "ISLE OF IVA". IVA students propose different societies for student membership and participation. These are student-led and supervised by a teacher. Once a year, students can tour with their classmates.

More than half of our students participate in E-Sports and E-Sports is a weekly lesson for Year 4 to 9 students. IVA is represented by students from many countries around the world and physical meets are organized per area from time to time.

BEYOND IVA

From year 9 onwards, a strong and well-developed career and tertiary guidance program ensures students and parents are well-informed and equipped to make the right decisions and choices for their children beyond IVA.

IVA MIND & BODY

Mental and physical health are the primary issues facing many people today. We aim to equip our students with the tools to manage their mental and physical health. Students engage once a week in lessons dealing with tools and strategies for healthy minds and bodies.

Counseling and mentorship structures are built in to ensure students have the support they need at any time.

“Your mind and body are instruments and how you tune them determines how you play your life.”

Harbhajan Yogi

We are an online school not a distance education provider

Live lessons in synchronous time

All lessons are recorded

Structured timetable

Strong parent communication systems

4 Report cards per year

Easy student-teacher communication

What are our parents saying

“My son started at IVA this year with a terrible report card from his previous online school. John Luis gave him a chance to prove himself and he managed to up his marks by 20 to 30% in all his subjects in the first assessment cycle.”

Babette, IVA Parent

“The kids are enjoying the classes, and they’re also taking away more knowledge which purely comes down to the quality, passion, and the caliber of the teachers.”

Marcus, IVA Parent

IVA Fees 2025

Our fee structure is monthly as follows:

Senior High School
